'The Day Shall Come': Satirical comedy with 'a lot of truth'

Marchánt Davis talks breakout film role.

MOLLY GIVEN

In 2006 seven members of a so-called "bizarre cult" were arrested and charged with terrorism-related offenses after the FBI launched a sting operation into the group's supposed criminal activity. What was later discovered about the now-deemed "Liberty City Seven" was that the group, in reality, had no plans of revolution, no weapons and no communication with any terrorist organizations whatsoever.

This story captivated director Chris Morris, and the U.K. native turned the harrowingly real story into a truthful satirical dark comedy that showcases just how easy it is to create terror out of stigmatized misconceptions. "The Day Shall Come" follows the story of a similar "radical" group and their journey to save their home. Although the film touches on very real subjects, the overall innate comedic undertones help shape the feature to be hilariously interesting but also severely eye-opening.

Metro sat down with Marchánt Davis, who plays the charismatic yet desperately naive leader of the FBI's targeted "radical" group, and the breakout star gave the scoop on how it was working on the film and what he hopes audiences take away from it.

How else did you prepare for your role?

There was a book I read called "How White Folks Got So Rich: The Untold Story of American White Supremacy," which was given to me by the director. It's actually a really interesting book and I encourage everyone to read it. But I also watched documentaries. I just wanted to see a little bit inside this world because there is a lot there and there are a lot of things I simply didn't know. It's crazy how [in the world] today you're really guilty until proven innocent.

Marchánt Davis plays Moses in "The Day Shall Come." IFC FILMS

How was it working with Chris Morris? I've heard he has an interesting directing style where things are always changing.

It was really great. Chris is one of those people who does an enormous amount of research before we even start. On set, there were times where we would be doing a reading and then we would go to lunch, and one day I remember specifically that Chris came up and handed me a script. I asked, "Is this for tomorrow?" But he says, "No, for later on today." The scene he handed me was the scene we had just done already, but Chris re-wrote it during lunch. He is one of those directors who was constantly looking to make it better. He just wanted to elevate the story in any way he could. There would be times where we would be on set and he would just throw out whatever he was thinking. It was really exciting to work with someone so wildly imaginative.

This is a satirical comedy that focuses more on serious subjects. What do you think the comedic aspect brings to tackling these social issues?

Well, you've got to laugh in life. One of the things Chris says beautifully about his work is that it's funny until it isn't. It's funny until the carpet is pulled out from underneath the character and the audience in terms of what we're watching. I think that's a great way to put it.

There are a few points in the movie that allude to your character, Moses, as having some sort of mental illness, but it's never quite confirmed. What was your take on that?

I think what motivates him in this film is his love for his family. He's trying to get money to get the loans he needs to save his family. So in terms of that idea of mental illness, I don't think there's any mental illness there, or I don't believe he thinks there is, at least. I think he's a visionary and sometimes his visions might not always be clear, but at the end of the day, he's the ultimate optimist.

Overall what do you hope audiences take away from the film after watching it?

My hope is that people take away the fact that it might be harder to catch a terrorist than it is to create your own. I hope people examine their ideas and thoughts on terrorism and people of color in this country. It is a comedy, but there is a lot of truth — especially for me, because I live it every day.

"The Day Shall Come" hits select theaters Sept. 27.

5 Ways to celebrate fall in Massachusetts

Autumn has arrived! The first weekend of fall is finally here, which means it's time to break out those flannel shirts and pumpkin spice lattes. If you need some help making the most of the season here in the Bay State, we've got you covered. Here are five ways to celebrate autumn in Massachusetts all fall long.

LEAF PEEPING

There's no better region in the world to experience fall foliage than in New England, and Massachusetts has many amazing spots to peep some leaves. Since colors typical start to change in the western part of the state before making its way east, get a headstart on checking out the beautiful foliage by taking a weekend trip to the Berkshires. Be sure to head to North Adams on Oct. 6, as leaf lovers will celebrate the changing colors with the 64th annual Fall Foliage Parade.

APPLE PICKING

Autumn is the perfect time to enjoy apples, and there's no shortage of great spots where you can pick them yourself. Red Apple Farm in Phillipston is a prime location, featuring everything from apple picking to hayrides to even barn yoga. Smolak Farms in North Andover is another solid choice, and also runs a fall children's festival on the weekends, with lawn games and access to the playground and animal area.

PUMPKIN FESTIVALS

There are other ways to celebrate pumpkins in the fall than with just a spiced latte. The Bay State has several festivals in honor of the squash scheduled for the season. This Saturday, the 29th annual Pumpkin Festival & Craft Fair goes down in Ashby. Meanwhile, both Dedham and Westport have pumpkin festivals set for Oct. 6. Later in the season, Cambridge Brewing Company gets in on the fun with the 12th annual Great Pumpkin Festival on Oct. 26.

CORN MAZES

There are a ton of farms around the state that are running epic corn mazes in the fall. Head to Connors Farm in Danvers for one of the state's best, an intricate trail that will get a little bit spooky during the Haunted Farm Halloween-themed festivities in October. Patriots fans will likely want to check out West End Creamery in Whitinsville this autumn, as the farm has a special Rob Gronkowski maze in honor of the retired New England star.

SET SAIL

Sailing to Nantucket doesn't seem like a typical fall activity, but it's actually one of the best times to visit the Massachusetts island. The island's scalloping season starts in November, so be sure to head to the destination later in fall to enjoy some of the best seafood bites around. Foodies can also celebrate all things cranberries at the Cranberry Festival in October. Or just relax and kick back with a beer at Cisco Brewers. METRO STAFF

The New $1 Cream for All Your Neuropathy Discomfort

A cream, not a pill, may be the most effective solution yet for neuropathy sufferers; increases sensation in the legs and feet, relieving burning, tingling, and numbness

By Dr. Henry Esber, Ph.D.

BOSTON – An exciting clinical use survey study shows that a new cream can relieve leg and foot discomfort in just 15 minutes of applying.

And according to the study participants, burning, tingling, and numbness were the most common symptoms to be relieved.

The cream, called *Diabasens*, recently developed by scientists in San Diego and became an instant hit among those suffering with neuropathy.

It's patent pending formula works within minutes of contacting the skin, initiating two phenomena's in the body.

The first phenomenon is known as vasodilation which triggers arteries to expand, improving circulation in the extremities.

The second is called TRPA1 activation and this is what really has people excited.

Research Shows Correlation Between Nerve Damage and Sensation

Published research shows that neuropathy symptoms arise when the nerves in your legs and feet break down and blood flow is lost to the areas which surround them.

As the nerves begin to die, sensation is lost. This lack of sensation is a major cause of burning, tingling, and numbness.

Remarkably, *Diabasens* contains one of the few known substances to activate TRPA1, a special sensory pathway right below the skins surface which controls the sensitivity of nerves. It's these nerves that allow you to feel hot, cold, and touch.

And although this pathway has been known about for years, neither a drug or a pill has been able to target it successfully. That's why *Diabasens* is so impressive.

"It all comes down to sensation. When sensation is lost the foot feels constantly asleep. It may also burn and tingle. When sensation is increased, these nagging symptoms often go away", explains Dr. Henry Esber, one of the scientists behind *Diabasens*.

"That's why *Diabasens* performed so well in our clinical use survey study. It increases sensation and blood flow wherever it's applied. It's impressive to say the least"

A Brilliant Technology Most Failed to Consider

Until now, many pharma companies have failed to develop a means of TRPA1 activation to manage neuropathy. *Diabasens* is one of the first to take full advantage of this amazing discovery.

"Today's treatment methods have focused on minimizing discomfort instead of attacking its underlining cause. That's why millions of adults are still in excruciating discomfort every single day and are always battling effects" explains Esber

"*Diabasens* is different. Since the most commonly reported symptoms...burning, tingling and numb legs and feet...are caused by lack of sensation of the nerves, we've designed the formula increase their sensitivity.

And since these nerves are located right below the skin, we've chosen to formulate it as a cream. This allows for the ingredients to get to the site faster and without any serious side effects" he adds.

Study Finds Restoring Sensation the Key To Effective, Long Lasting Relief

With the conclusion of the human clinical use survey trial, the makers of *Diabasens* are offering it nationwide. And regardless of the market, its sales are exploding.

Men and women from all over the country are eager to get their hands on the new cream and according to the results study participants reported, they should be.

In the trial above, participants taking *Diabasens* as needed experienced relief in just 15 minutes after applying! Burning, tingling and numbness were the most commonly reported symptoms to improve.

Even more impressive, when asked if this was the best product they used for their legs and feet, 90% gave a resounding "Yes" with all participants concluding they would absolutely recommend it to someone else.

A breakthrough in neuropathy management and supportive care, Diabasens is shown to provide relief from:

- Discomfort
- Numbness
- Tingling
- Swelling
- Balance

Targets Nerves Right Below the Skins Surface

Diabasens is a topical cream that is to be applied directly the legs and feet. It does not require a prescription.

The active ingredient is a compound known as cinnamaldehyde.

Studies show that neuropathy and discomfort caused when peripheral nerves breakdown and blood is unable to circulate into your legs and feet.

As these nerves deteriorate, sensation is lost.

A NEW WEAPON FOR FIGHTING NEUROPATHY DISCOMFORT: Diabasens increases sensation and blood flow wherever its applied. It's now being used to relieve burning, tingling, numbness among other discomforts.

This is why you may not feel hot or cold and your legs and feet may burn, tingle and go numb.

Worse, without proper blood flow, tissues and cells in these areas begin to die, causing pain that seems to never go away.

The cinnamaldehyde in *Diabasens* is one of the very few compounds in that can activate TRPA1, a special sensory pathway that runs through your entire body.

According to published research, activating this pathway increases the sensitivity of nerves, relieving feelings of tingling and numbness in your legs and feet.

Supporting ingredients boost blood flow, support cellular health and stimulate the nerves for increased sensation.

Amazing Relief Exactly Where You Need It

With daily use, *Diabasens* users report remarkable improvements in their quality of life without of the serious side effects or interactions associated with prescription drugs.

Readers can now enjoy an entirely new level of comfort that's both safe and affordable.

Users have found is also extremely effective, especially if nothing else has worked with 90% ravings it's the best leg and foot product they've ever tried.

'First Love' master filmmaker hits all the marks and then some

Takashi Miike takes us through his newest gangster film.

JAMES CASE

Takashi Miike elevated what it means to be a prolific director. With most American directors, the pace of one of year is a high rate. Miike sometimes completes more than five major projects a year. Since his debut in 1991, he's directed over 100 Japanese theatrical, television and film productions. His name is a brand within itself in the way Scorsese and Spielberg are brands in the West.

What separates Miike from directors here is Miike's tonal breadth. Miike's films can be violent, whimsical, bizarre, controversial, humorous, romantic, satirical, downright horrifying, supernatural, musical and even family friendly. You can pretty much pick any genre, and Miike has made a well-regarded film within it.

Within all of that work, Miike is best known for the genre he continues to return to — Yakuza gangster films. But his newest film, "First Love," doesn't feel remotely like a veteran director knocking out another film — it's thoughtful, sublime and self-aware.

"I think as a director, I haven't evolved very much," Miike said. "I feel like I'm still at the starting gate. And I'm just like, stuck there. It's like the starting where you have the path to success."

"First Love" is an acerbic, anarchic, noir-tinged Yakuza film blending genres — it's the story of a young boxer and a call girl, who fall passionately in love while getting innocently caught up in a drug-smuggling scheme over the course of a very long night in Tokyo.

"I'm still kind of in that category of feeling like starting filmmakers in a way and I'm actually thankful that I can maybe still see things with fresh eyes or do things with as much youthfulness as I maybe I did before."

Miike knows the ins and outs of the Yakuza gangster flick intimately and it shows in the details of "First Love." The critique of the Yakuza film and lifestyle is apparent in subtle asides characters make as the plot and carnage advances.

"First Love" finds its footing when it is most irreverent and teetering on the absurd. As the kill count piles up, in more unusual and surprising methods, the characters own escalating desensitization to the violence starts to mirror that of the audience.

As some of the elements become over-the-top it highlights how normalized the portrayal of violence in media has become, that only the furthest degree of absurdity ends up shocking us, and we're left asking ourselves what is about stories like this that we're drawn to in the first place. Our appetites and tolerances become highlighted, along with our attempts to ascribe meaning and signifiers, almost as excuses, to violence in media to begin with.

The central protagonist works a professional boxer. His relationship to violence is organized, structured and policed. The rules and boundaries are clearly defined, although he may not be a passionate fighter, or even clear why he's a boxer — he simply boxes — he's certainly a skilled fighter.

Equal Housing Opportunity

It's only when his relationship to boxing collapses that indirectly spurs his connection to the gangs.

Miike seems acutely aware of the inherent draw of gangster films and the violence within, and "First Love" is rife with rich, subtle musings on violence, greed and the perils where one feels there is no hope. It feels like a Tarantino film, but with the bombast discarded and human depth and subtlety added.

It's important to note that there isn't the faintest whiff of pretension around "First Love" or someone as well-versed in filmmaking as Miike. He's an affable, pleasant, professional, quintessentially working director. His practices are honed, his method of directing taut and the execution of his vision is unstrained by overt critical discourse or over-thinking his process. What's most important to Miike is that making movies — as well as movies — stays centered as a pleasurable experience.

"We're gonna have fun making this film. And then, you know, we're going to show it to everyone else. And if people like it, that's even better. But if they don't like it, you know, then maybe they'll say, Okay, well, you know what? Your film isn't for us. And I think actually, that's the way it should be. I don't think that I should be making films that are meant to reach every single audience," Miike says.

Considering his vast filmography and varied working palette, it's impressive that terminology such as "film" and "cinema" feels out of place when talking to Miike. The seemingly-diminutives "movie" and "flick" feel more appropriate

to the tone and vibe in "First Love" as it does to Miike's lower budget or direct-to-DVD's end of the Miike spectrum — but all with the first-class production values. A cinephile as well as popcorn-and-soda viewer will have a sense of glee at the direction and action. Seeing a master at the height of their powers simply having fun and being unconcerned with pleasing a mass audience leads to an enjoyable crime-filled romp that ends up pleasing a mass audience.

"These people are also there, they're just trying to live their lives in a way," Miike says. "They are also trying to kind of leave some kind of legacy or, you know, some kind of testament to their life. Within that context, you have all this chaos that occurs."

It's valuable that our entry point to the story is through the central characters who are essentially civilians. They've either become immersed in the underworld against their will or have found themselves in too deep with the almost-comically-crowded Yakuza underbelly. We see the absurdity and violence of the Yakuza through the lens of these two relatable characters — and a savvy, or cynical viewer it almost serves an agitprop against the aesthetic and values of Yakuza and gangster films as a whole. The final shots further highlight the values of normal living and finding value in honest living.

"First Love" opens in select theaters this weekend.

INFLATABLE POOL SEASON IS OVER!

It's time to drain the inflatable pools, clean out the dead leaves and debris and put them away till next summer. They are a breeding ground for West Nile virus and other mosquito-related diseases. When I was walking in my neighborhood, I saw a pool filled with leaves and polluted water. Surely no one is going to take a dip in there. So take down the pool and put up the Halloween decorations.

I'd rather a Halloween treat than a West Nile/EEE fright.

Seeking favors, Trump asked Ukraine president to investigate Biden

Summary of call released day after impeachment inquiry launch.

President Donald Trump pressed Ukraine's president to investigate a political rival, former Vice President Joe Biden, in coordination with the U.S. attorney general and Trump's personal lawyer, according to a summary of a momentous telephone call released by the Trump administration on Wednesday.

The official account of the half-hour July call laid bare an astonishing exchange of requests, pledges and ingratiation, including some unrelated to Biden, such as when Trump asked President Volodymyr Zelensky "to do us a favor" involving a controversy arising from the 2016 U.S. presidential campaign.

The summary was released a day after U.S. House of Representatives Speaker Nancy Pelosi said the Democratic-led chamber was launching an official impeachment inquiry, setting up a political showdown that threatens Trump's presidency as he campaigns for re-election in 2020.

The details of the July 25 call drew furious reactions from Democrats, who accused Trump of soliciting Ukraine's help to smear Biden, the frontrunner among Democratic candidates seeking to challenge the Republican president in the November 2020 election.

The call occurred after Trump had ordered a freeze of nearly $400 million in American aid to Ukraine, which the administration only later released.

> **"What those notes reflect is a classic Mafia-like shakedown of a foreign leader."**
> Adam Schiff

"What those notes reflect is a classic Mafia-like shakedown of a foreign leader," said Democrat Adam Schiff, chairman of the House Intelligence Committee.

Republicans said it showed Democrats were wrong to move forward with impeachment. "There was no quid pro quo and nothing to justify the clamor House Democrats caused," said Doug Collins of Georgia, the top Republican on the House Judiciary Committee.

Trump and Zelensky appeared side by side in New York on the sidelines of the U.N. General Assembly and denied impropriety in their call, with Ukraine's president telling reporters: "Nobody pushed me."

At a news conference closing out three days of meetings in New York around the United Nations General Assembly, Trump accused Democrats of launching the impeachment inquiry "because they can't beat us at the ballot."

In a statement, Biden said Trump put personal politics above his oath of office and that Congress must hold him to account for "his abuse of power."

The controversy arose after a whistleblower from within the U.S. intelligence community brought a complaint relating to Trump's conversation with Zelensky.

Even though federal law calls for such complaints to be disclosed to Congress, the Trump administration has not done so. Members of the House and Senate Intelligence committees were allowed to see the complaint on Wednesday, the day before acting U.S. director of national intelligence, Joseph Maguire, testifies at a House intelligence panel hearing. REUTERS

Intelligence Committee's Schiff says whistleblower complaint disturbing

U.S. House Intelligence Committee Chairman Adam Schiff said on Wednesday after viewing a whistleblower complaint concerning President Donald Trump that the allegations were "deeply disturbing" and "very credible."

The complaint, lodged by a member of the U.S. intelligence community, reportedly centered on Trump urging Ukraine to investigate a political rival, former Vice President Joe Biden.

"I found the allegations deeply disturbing. I also found them very credible," Schiff told reporters.

After initially resisting demands by Democrats in Congress to see the complaint, the Trump administration relented and released its contents to House of Representatives and Senate intelligence committees on Wednesday.

Schiff thanked the whistleblower for coming forward. "I think that what this courageous individual has done has exposed serious wrongdoing," he said. "We will do everything possible to protect you."

Trump pressed Ukrainian President Volodymyr Zelensky in a July phone call to launch a probe of Biden and his son, who worked for a Ukrainian gas company. A summary of the call was released on Wednesday by the Trump administration.

Adam Schiff. REUTERS

A Republican member of the House Intelligence Committee, Mike Conaway, said after reading the complaint he did not think it would compromise Trump if it was declassified.

"I haven't seen anything that bothers me," Conaway said.

House Democrats Mike Quigley and Eric Swalwell said they think the summary rises to the level of high crimes and misdemeanors. "The report reinforces our concerns," Quigley said.

The Democratic-led House on Tuesday launched a formal impeachment inquiry of Trump over the Ukraine matter. REUTERS

State vape ban could cause people to use dangerous products: Regulator

Officials are concerned addicted customers will turn to "illicit sellers."

Now that all vaping products have been banned in Massachusetts for four months, patients and consumers who don't want to smoke their marijuana will have to find alternatives — or else turn to potentially dangerous products on the illicit market, one cannabis regulator warned.

Gov. Charlie Baker's administration on Tuesday imposed an immediate ban on the sale of any and all vape products while federal and state public health officials continue to investigate a spate of lung illnesses connected to vaping nicotine and/or THC derived from marijuana.

But by banning the sale of regulated products, the state could be pushing people who are addicted to nicotine or dependent on THC to get their favored products from illicit sellers — which could be exactly where the illnesses might have originated, Cannabis Control Commission member Shaleen Title said.

"My concern is, with the evidence showing that the dangerous products are coming from the illicit market, when we issue a ban, especially on addictive products like e-cigarettes, we are pushing people to the illicit market, which is exactly the source of the unregulated and potentially dangerous products," Title said Wednesday on WGBH's "Morning Edition."

Her comments were echoed overnight and Wednesday morning on social media and talk radio as the governor's ban was met with backlash from people who wish to continue buying and using vaping products, as well as from merchants who are now suddenly unable to sell their products.

Title said there has been no link shown between legal, regulated marijuana products and the lung illnesses being investigated around the country.

"The important thing is, we saw this issue, it's a public health epidemic, and we're acting."
Public Health Commissioner Monica Bharel

"We as a commonwealth need to pause sales in order for our medical experts to collect more information about what is driving these life-threatening vaping-related illnesses," Baker said Tuesday when he announced the ban. "We also need to better understand the inherent dangers of vaping both nicotine and marijuana."

Asked Tuesday, after the Public Health Council approved the ban, about the potential for driving consumers into illicit markets, Public Health Commissioner Monica Bharel said, "We can't speculate on that."

"We won't know what's going to happen, except that we plan to put our full efforts into enforcement of it," Bharel said. "The important thing is, we saw this issue, it's a public health epidemic, and we're acting."

Also Wednesday morning "Morning Edition," host Joe Mathieu asked Health and Human Services Secretary Marylou Sudders what medical marijuana patients who don't want to smoke marijuana should do now that all vapes are off shelves.

"Well, there are many marijuana products. There's not just smoking, there's oils and there are other marijuana remedies available," Sudders said.

What is Boston's most-searched food?

GETTY IMAGES

Yelp is celebrating its 15th anniversary, and to commemorate it they are reflecting on some of the biggest tastes, words and trends that occurred within the past few years. Looking back at 200 million reviews and 40 million compliments, here's what they found out about Boston.

Yelp did some research, by comparing the language in reviews for specific cities to Yelp nationwide, to help determine what each major city is looking for when it comes to dining.

Metro spoke with Tara Lewis, Yelp Trend Expert about Boston food trends, and although she expected lobster rolls to trend in Boston, on a national scale Metro noted that Mexican food and scallion pancakes seemed to top multiple cities' lists, including Boston's.

200M

Looking back at 200 million reviews and 40 million compliments, here's what Yelp found out about Boston.

Metro was curious if Lewis was surprised by the rise in these items, and Lewis told Metro that, "Mexican cuisine has steadily risen over the last 15 years on Yelp. Similarly, Chinese has remained a top cuisine on Yelp, so it's no surprise scallion pancakes are popular among Yelpers in these cities."

Besides lobster rolls, scallion pancakes and Mexican food, here's what Boston's top searched-for words are: Lobster roll, scallion pancake, cannoli, crab Rangoon, lobster ravioli, pub food, chicken broccoli, Bolognese, maki, chicken parm, buffalo chicken, home fries, wicked, Mexican, seats bar, and single. Although these are a few of the top searched-for items, to look at more of the top searched terms, go to yelp15.com.

Besides localized data, Yelp looked back at national data as well. Here's what they discovered about 2019 Yelpers.

In 2019, foods that have seen the most significant spikes in popularity on Yelp are oat milk, CBD, the Impossible burger, Açai bowl, and street corn. Currently, cuisine trends in cities across the United States are Filipino, Hawaiian, Hot Pot, Tex-Mex and Vegan.

Lewis added, "The Impossible Burger was nearly nonexistent before 2016 but is on track to be one of the biggest food searches of 2019." BECCA GLASSER-BAKER

4 Cheaper alternatives to popular vacation spots

NerdWallet is a personal finance website.

The golden rule of affordable travel is to visit places when or where it isn't busy. Even you don't have a lot of flexibility on the "when," you can always tweak the "where" — and even a small location change has the potential to save you big.

The travel website TripAdvisor recently looked at the most popular Summer 2019 vacation spots in the United States and found big savings on hotels at affordable alternative destinations. Here are some of their recommendations.

Kissimmee instead of Orlando

It's not a huge surprise that Orlando, Florida, was the most popular summer destination in the United States this year. After all, Orlando is home to some of the country's most popular theme parks, which are unveiling new elements this year that are likely to produce even larger crowds than usual. Disney World is slated to open a highly anticipated new Star Wars-themed land in late August, and Universal Studios recently added a new roller coaster called "Hagrid's Magical Creatures Motorbike Adventure" to the Wizarding World of Harry Potter.

To save money on your Orlando vacation, consider staying in nearby Kissimmee, Florida. Kissimmee is less than 20 miles away from Disney and Universal, meaning you can have all of the fun without the expensive hotel rates. According to TripAdvisor, the average summer nightly hotel rate in Kissimmee is $137, which is 37 percent less than the $216 average nightly rate in Orlando. Even when you factor in the cost of a rental car, staying in Kissimmee will likely still leave you with money left over for some theme park funnel cake.

Reno instead of Las Vegas

Las Vegas may have all the flashing lights of the Strip, but the northern alternative of Reno, Nevada, still has plenty of gambling and hotel pool parties to satisfy many travelers' idea of letting loose for vacation. Reno is also close to Lake Tahoe, which offers incredible views, hiking and water activities during the summer.

Save an average of 14 percent per night by going to Reno instead of Las Vegas, with an average nightly hotel rate of $144 in Reno, according to TripAdvisor.

Kill Devil Hills instead of Myrtle Beach

Myrtle Beach, South Carolina, is a popular family-friendly beach vacation town, but if all you and the kids need for a quiet getaway is waves, sand and a cute little beach house, you might want to look into a vacation in North Carolina's Outer Banks. Kill Devil Hills offers several miles of sandy coastline that's great for lounging on the sand, kayaking, fishing, crabbing or just going for a bike ride. There's also a memorial to the Wright Brothers' first flight.

A hotel room in Kill Devil Hills costs an average of $200 per night, compared to the $250 you would pay in Myrtle Beach, according to TripAdvisor.

Oahu instead of Maui

There are more airplane seats to Hawaii now that Southwest has started flying to the Aloha State. Maui is sometimes called the "playground of the wealthy" because of its upscale and expensive resorts. To make your vacation to this tropical paradise a little more affordable, stay on the island of Oahu instead, which caters to tourists of all budgets.

By choosing Oahu over Maui, TripAdvisor found that you'd save an average of 38 percent. Hotels in Maui average $533 per night, while hotels in Oahu only average $328 per night, according to their research. MEGHAN COYLE

WHAT PATS DRAMA IS NEXT?

OPINION

DANNY PICARD

Listen to "The Danny Picard Show" at dannypicard.com. Follow him on Twitter @dannypicard

So what's next for the New England Patriots? Because it's always something.

Now that Antonio Brown has been released and gone back to school, the soon-to-be 4-0 Patriots can't just go quietly into that good night. There's got to be another story that catapults this team back into the daily "breaking news" cycle. It would only be right.

Think about it. You can go all the way back to the drama that was Bill Belichick becoming the Patriots new head coach. Since then, we've had Tom Brady replace Drew Bledsoe, Spygate, Randy Moss, a perfect regular season, a murderer, Jimmy Garoppolo, Deflategate, Alex Guerrero, PED suspensions, Robert Kraft's massage-parlor sex acts, and most recently, the Antonio Brown circus.

I'm sure I'm forgetting a few things. But I'm only human.

The Patriots will never not be exempt from some type of drama, or at least, something that's portrayed to be a drama-filled event by all of us outside the Gillette Stadium walls. Which is amazing, considering just how little the organization reveals when talking to the media.

Every year, we act like we know it all. But the only thing I know right now is there's going to be something else this season that steals the national headlines and remains newsworthy going into the playoffs.

What could it be?

It's not like having a dominant defense that hasn't allowed a touchdown since last year's AFC Championship Game is a juicy enough story to open SportsCenter with. And nobody can really go in on a "Brady vs Jarrett Stidham" conspiracy while the rookie quarterback is throwing interceptions against the Jets in garbage time.

The next big story that will follow this Patriots team is obvious.

It's "Gronk Watch." And it's coming to a media outlet near you this fall.

That's right, with Brown out of the picture and Demaryius Thomas traded, it's time to pull out the social-media binoculars and get ready for the biggest headline-grabber of the season. It's time to get back to asking the question, "When will Rob Gronkowski return to the Patriots?"

Gronkowski announced his retirement back in March. Since, he's publicly announced a personal partnership with a CBD company. And he's never once slammed the door shut on a return to football.

He mocked the idea of us ever accepting him closing the door on a return to the Patriots. And he's right. We will probably never accept it to be true until we see him walking down the aisle at WrestleMania. And even then, there'd be a whole lot of people saying, "Yeah, but..."

Gronkowski's agent is Drew Rosenhaus. The same Rosenhaus who also represents Brown. The same Brown who the Patriots just released last Friday.

If you believe in the power of an "I owe ya one," then you believe that Rosenhaus probably owes the Patriots something for not giving them a heads up on the rape accusation against Brown before the Patriots signed him, that is, if you believe the Patriots didn't know actually about those accusations ahead of time.

Ultimately, though, it all comes down to what Gronkowski wants to do. Does he ever want to play football again? Nearly four weeks into the NFL season, is he starting to get that itch yet? And at what point does Brady give him a call and say, "Hey Gronk, we need ya."

Don't be surprised to see the Patriots linked to rumors involving a trade for Jacksonville cornerback Jalen Ramsey or Washington offensive tackle Trent Williams. Because, why not, right? But the most logical move for the Patriots is convincing Gronkowski to return.

It's going to take some money to do so. I mean, you're going to give Brown $10 million guaranteed for one season and not do the same for Gronkowski? Especially if they have the same agent?

I say pay Gronkowski. Continue to refuse to pay Brown his $9 million signing bonus and, instead, give it to a re-energized and healthy tight end for the second half of the season. Make that the next big story. And let's start it right now.

I'm officially back on Gronk Watch.

Pats–Bills notes

The Patriots have historically had some issues containing mobile quarterbacks, particularly early in the season. Two years ago this week, then-rookie Deshaun Watson threw for 301 yards, two touchdowns and ran for 41 yards in an impressive performance against the New England defense.

But, as we know by now, this isn't the "bend but don't break" Pats defense of yesteryear.

The Pats defense should be able to limit athletic Bills QB josh Allen, who has looked strong for Buffalo to kick off his second year in the league.

He's thrown for at least 243 yards in each of his first three games, and has a total of 105 yards on the ground with two rushing TDs this season. But Allen is still prone to some sloppiness when putting the ball in the air. He was picked off twice by the Jets in Week 1, and once by the Bengals this past weekend. His TD to INT ratio so far is 3:3.

In comparison, Tom Brady's is 7:0. Matt Burke

Patriots vs. Bills betting preview

VSiN

Off two virtual byes, the Patriots will be stepping way up in competition this Sunday on the road against the undefeated Bills.

The Patriots will likely close near touchdown favorites, which is still a sign of great respect. New England sits atop global futures prices to win the AFC and the Super Bowl, and is power-rated as the best team in the league. Laying about seven points in Buffalo is the same as laying about 10 points on a neutral field, or 13 in Foxboro.

Will New England be ready for an opponent that can walk and chew gum? Neither Miami nor the New York Jets could manage either on offense. Those easy Patriots victories were virtually identical except for non-offensive touchdowns. Call them wins by scores of 29-0 and 30-0. The Pats scored two defensive TDs in a 43-0 humiliation of Miami, the Jets scored one apiece on defense and special teams last week in a 30-16 decision.

VSiN can't say Buffalo represents the first true test for New England. That was at home opening night vs. Pittsburgh. Bill Belichick, Tom Brady, and company re-confirmed their championship bona fides. Sunday brings the first road test. The Patriots did stub their toes a few times away from home last season…

Patriots (-2) lost at Jacksonville 31-20

Patriots (-7) lost at Detroit 26-10

Patriots (-6.5) lost at Tennessee 34-10

Patriots (-9.5) lost at Miami 34-33

Patriots (-2.5) lost at Pittsburgh 17-10

Two of those have already been avenged. This year's team would like to establish itself as a cut above last season's Super Bowl champs by performing more impressively on the road.

Is up-and-coming Buffalo for real as a wildcard threat in the AFC East? Or, has it benefitted from a friendly schedule?

Both are possibly true. But, beating the Jets, Giants, and Bengals in succession may not mean much of anything deeper in the season. Those teams are a combined 1-8!

GETTY IMAGES

And, it would have been 0-9 if Tampa Bay hadn't missed a last-second field goal vs. the G-men.

Buffalo highlights: "The Bills outgained the Jets 370-223 on 5.9 to 3.4 yards-per-play in a season opener that was much more one-sided than the 17-16 final score suggested.

"The Bills marched down the field for long touchdown drives of 75, 70, 98, and 75 yards in their 28-14 win over the Giants.

"The Bills outrushed Cincinnati 175-67 while forcing four turnovers and holding the Bengals to 27 percent on third down tries.

Let's say it this way. Buffalo looks to have at least a wildcard-caliber defense. The offense has a chance to prove itself against the powerful Patriots Sunday.

TNF betting: Eagles–Packers

MATT BURKE

Matt Burke is a veteran sports journalist and the Founder and Editor in Chief of MetroBet.

The Eagles will have their hands full with the Packers' new-look defense, which is allowing just 11.7 points per game (good for second in the NFL), but it should be pointed out that Green Bay did not exactly face a murderer's row of offenses through the first three weeks.

The Packers held Mitch Trubisky and the Bears to three points in Week 1, held Kirk Cousins and the Vikings to 16 points in Week 2, and held Joe Flacco and the Broncos to 16 points this past weekend.

La-de-da.

Let's see how they fare going up against a top 10 quarterback like Carson Wentz.

Another mystery with the Packers is whether or not Aaron Rodgers is still capable of playing like an elite quarterback. He hasn't made any mistakes through the first three games of the season as he hasn't been picked off yet – but he also has just four TD passes and hasn't thrown for more than 235 yards in a game yet.

The good money says that Rodgers will be just fine under new head coach Matt LaFleur moving forward. Rodgers' offensive line is elite, as the unit did not allow one Broncos player to sack him this past Sunday.

There have been hints dropped that the Packers are simply using September as an extended pre-season with the offense and that Rodgers is just about ready to turn on the afterburners.

"All the guys who think Rodgers has dropped off don't play him," an anonymous coach told The Athletic's Mike Sando this week.

Expect Rodgers to be able to sit back in the pocket and shred the Eagles' shaky secondary.

Conversely, expect Wentz and the Eagles offense to be able to put up at least 20 points on the Packers.

I think it's a wise move to stay away from the spread and moneyline this week, and instead focus on the over – under, which is set at 45.5 total points. Thinking here that the Eagles will show that the Packers defense is slightly overrated, and that the old Aaron Rodgers will be on display at Lambeau tonight under the lights.
